TECHNICAL SKILLS

Languages

Python, Java, C, C++

Frontend

React.js, Vite, HTML/CSS

Backend

Node.js, Flask

Databases

MySQL, MongoDB

DevOps

Docker, Jenkins, Git

Concepts

DSA, REST APIs, OOP

LANGUAGES

- English
- Hindi
- Tamil

EDUCATION

VIT Chennai

BTech — AI & ML
2024 – 2028

Delhi Public School

Greater Noida, UP
2018 – 2024

ABOUT

Second-year BTech AI & ML student at VIT Chennai. I build things — three full-stack projects across optimization, database systems, and location-based services using Python, React, Flask, Docker, MySQL, and MongoDB. I've led sports teams, spoken on stage, and I'm comfortable picking up new tools when the project needs them.

PROJECTS

RoomFlow — AI Furniture Layout Optimiser

Python · Flask · React · Vite · MySQL · Docker · Streamlit

- Generates optimised furniture arrangements for any room using Simulated Annealing — weighs ergonomic rules, walkway clearance, and BFS/A* pathfinding to produce 3 ranked layout proposals.
- Scoring engine evaluates each layout across multiple objectives; results visualised as 2D furniture maps via Streamlit and Matplotlib.
- Full stack containerised with Docker Compose for one-command local setup.

Pilot Records Management System

PHP · Flask · React · MySQL

- Full-stack system to log, search, and manage pilot flight records with a normalised relational schema in MySQL.
- Flask and PHP backend expose a REST API; React frontend handles data entry, filtering, and tabular reporting.

PujaSeva — Local Priest Finder & Booking App

Python · Flask · MongoDB · React

- Connects users with priests in their area for rituals and ceremonies — priest profiles include specialisations, languages spoken, area coverage, and live availability.
- MongoDB stores flexible document data for priests and users; booking and filtering logic sits in a Flask REST API consumed by a React frontend.

EXPERIENCE

Blockchain Developer · HackClub VIT Chennai

Apr 2025 – Present · Remote

Work on student-led blockchain prototypes; contribute through hands-on building and peer code review sessions.

Marketing Team Member · Music Club, VIT Chennai

Sep 2024 – Present

Plan outreach for club events, manage social communications, and coordinate across sub-teams.

Public Relations Member · Sports Club, VIT Chennai

Nov 2024 – Present

Handle external communications and publicity for inter-college sports events.

Sports Captain · Delhi Public School (DPS)

2023 – 2024

Captained school sports teams — managed scheduling, training sessions, and match-day coordination.

ACHIEVEMENTS

- Hackathon Participant — VIT Chennai Dataset Edition 2
- Student Representative for AI & ML cohort at VIT Chennai
- National-level Gold Medalist in Bharatanatyam
- District-level Basketball player; former Basketball Team Captain
- Toastmasters member; MUN Honorable Mention recipient
